

Price list

Ophthalmology

Type of treatment	EUR	GBP
Specialist consultation	38-100	30-80
Follow-up visit to 14 days after first appointment	25-38	20-30

DIAGNOSTIC TEST

Fluorescein angiography	63-75	50-60
Optical coherence tomography (OCT) - one eye	30-38	24-30
Optical coherence tomography (OCT) - two eyes	50-63	40-50
Fundus photography	25-30	20-24
Histological examination	23-28	18-2
Synoptophore examination with consultation	50-63	40-50
Computerized eye exam	5-7	4-6
Daily curve of intraocular pressure	30-38	24-30
First perimetry test	15-20	12-16
Succeeding perimetry test	13-15	10-12
Perimetry test of one eye	7-10	6-8
Corneal confocal microscopy (two eyes)	50-62	40-50
Pentacam	12-15	10-12
Lacrimal lavage	37-50	30-40
Pachymetry (one eye)	5-7	4-6
Culture test (one eye)	10-12	8-10
Non-contact tonometry	5-7	4-6
Applanation tonometry	10-12	8-10
Corneal topography with description	20-25	16-20
Corneal topography	13-14	10-11
Eye and orbit ultrasound - A-scan & B-scan	20-25	16-20
UBM-Scan ophthalmic ultrasound	42-50	34-40
Early diagnosis of glaucoma - GDx VCC (Nerve fibre layer thickness measurement)	22-27	18-22
Ganglion cell complex GCC scan	17-20	14-16
Glaucoma diagnosis - Package 1 (GDx VCC + GCC + visual field test)	50-62	40-50
Glaucoma diagnosis - Package 2 (GDx VCC + GCC)	37-50	30-40

CATARACT SURGERY

Preoperative evaluation for cataract surgery (one eye)	100-125	80-100
Phacoemulsification with foldable Intraocular Lens (IOL) implantation	800-900	640-720
Acrysof Natural lens implant	175-200	140-160
Acrysof IQ Natural lens implant	237-275	190-220
Acrysof TORIC lens implant	450-475	360-380
Pseudoaccommodative Acrysof ReSTOR lens implant	900-925	720-740
Pseudoaccommodative Acrysof ReSTOR TORIC lens implant	1200-1225	960-980
Cionni Capsular Tension Rings	1560-1580	1248-1264
Reconstructive surgery (secondary implantation, trans-scleral fixation, anterior segment surgery, surgical combination)	1000-1025	800-820

CATARACT SURGERY AND GLAUCOMA

Preoperative evaluation for cataract surgery and glaucoma (two eyes)	100-125	80-100
Phacoemulsification with foldable Intraocular Lens (IOL) implantation and peripheral iridectomy	1400-1500	1120-1200
Phacoemulsification with foldable Intraocular Lens (IOL) implantation and trabeculectomy	1400-1500	1120-1200
Phacoemulsification with foldable Intraocular Lens (IOL) implantation and deep sclerectomy (Healaflo)	1650-1750	1320-1400
Phacoemulsification with foldable Intraocular Lens (IOL) implantation and trabeculectomy with ExPress drainage implant	1950-2000	1560-1600
Phacoemulsification with foldable Intraocular Lens (IOL) implantation and trabeculectomy with iStent implant	1950-2000	1560-1600

Phacoemulsification with foldable Intraocular Lens (IOL) implantation and tube-shunt surgery (with Ahmed or Baerveldt valve)	2125-2200	1700-1760
Phacoemulsification with foldable Intraocular Lens (IOL) implantation and canaloplasty	2200-2250	1760-1800
Acrysof Natural lens implant	175-200	140-160
Acrysof IQ Natural lens implant	238-263	190-210
Acrysof TORIC lens implant	450-475	360-380
Pseudoaccommodative Acrysof ReSTOR lens implant	900-925	720-740
Pseudoaccommodative Acrysof ReSTOR TORIC lens implant	1200-1225	960-980

VITRECTOMY

Preoperative evaluation for vitrectomy (two eyes)	100-125	80-100
Vitrectomy	1775-1900	1420-1520
Lensectomy	250-275	200-220
Decalin injection	125-150	100-120
Silicone oil injection	125-150	100-120
Photocoagulation	125-150	100-120
Gas injection	125-150	100-120
Vitrectomy in diabetic macular edema	1775-1825	1420-1460
Vitrectomy for stage 1-3 macula hole	1775-1825	1420-1460
Vitrectomy for stage 4 macula hole	1900-1950	1520-1560
Retinal detachment	1900-1950	1520-1560
Lucentis injection	875-900	700-720

INTRAVITREAL INJECTIONS

Preoperative evaluation	100-125	80-100
Avastin intravitreal injection	200-225	160-180
Eylea (afibercept) intravitreal injection	550-625	440-500
Lucentis intravitreal injection	800-875	640-700
Ozurdex (dexamethasone) intravitreal injection	1625-1675	1300-1340

LASER VISION CORRECTION

Preoperative evaluation	75-100	60-80
Eye exam	25-30	20-24
Toric eye exam	45-50	36-40
PRK (one eye)	500-550	400-440
Premium PRK (one eye)	625-700	500-560
LASEK (one eye)	550-625	440-500
Premium LASEK (one eye)	675-750	540-600
LASIK (one eye)	675-750	540-600
Premium LASIK (one eye)	800-850	640-680
Epi-LASIK (one eye)	725-800	580-640
Premium Epi-LASIK (one eye)	850-875	680-700
SBK-LASIK (one eye)	725-750	580-600
Premium SBK-LASIK (one eye)	850-875	680-700
EBK (one eye)	775-825	620-660
Premium EBK (one eye)	900-950	720-760
Femto-LASIK (one eye)	900-950	720-760
Premium Femto-LASIK (one eye)	1025-1075	820-860
FLEX (one eye)	1100-1150	880-920
SMILE (one eye)	1300-1350	1040-1080
LBV (Laser Blended Vision) - correction of presbyopia using LBV module and femtosecond laser	1200-1250	960-1000
Second surgery up to 24 months after the treatment (one eye)	325-375	260-300
Follow-up visit (in the first year after surgery)	18-20	14-16

CORNEAL CROSS LINKING

Preoperative evaluation	63-75	50-60
CROSS LINKING (one eye)	525-575	420-460

PHAKIC INTRAOCULAR LENSES

Preoperative evaluation	100-125	80-100
Phakic intraocular lenses implantation (one eye)	1350-1400	1080-1120
1 month follow-up visit included		
Follow-up visit after Phakic IOLs	17-20	14-16

EYELID & TEAR DUCT SURGERY

Preoperative evaluation	75-87	60-70
DCR (Dacryocystorhinostomy)	1125-1175	900-940
Entropion	625-675	500-540
Ectropion	625-675	500-540
Lazy-T	625-675	500-540
Ptosis	625-675	500-540
Incomplete eyelid closure	625-675	500-540
Eyelid retraction	625-675	500-540
Pliability to the skin	625-675	500-540
Blepharoplasty	625-675	500-540
Gold eyelid implants	875-925	700-740
Lacrimal/punctal plugs	175-200	140-160
Anesthesiological care	75-100	60-80

OTHER EYECARE PROCEDURES

Preliminary examination	25-30	20-24
Phototherapeutic keratectomy (PTK)	25-300	20-240
Wart / atheroma	100-125	80-100
Xanthomas (one eyelid)	100-125	80-100
Wounds (superficial)	87-100	70-80
Eyelid cyst (chalazion) removal	95-100	76-80
Injection for chalazion	50-62	40-50
Pterygium	250-300	200-240

LASER THERAPY

Focal photocoagulation	75-100	60-80
Panphotocoagulation	112-137	90-110
SLT (Selective Laser Trabeculoplasty)	100-125	80-100
Nd YAG laser - iridotomy,capsulotomy,trabeculoplasty	75-100	60-80
Follow-up visit to 4 weeks after the treatment	25-30	20-24

CONTACT LENSES

Spherical soft lenses	30-37	24-30
Soft toric lenses	45-50	36-40
RGP lenses	160-175	128-140
Bitoric lenses	195-212	156-170
